

# SpacePole Digital Signage

It's time to see the bigger picture

## Indoor Digital Signage Enclosures

### SPDS1000 & SPDS1001

The SpacePole Digital Signage indoor enclosure provides an eye-catching solution for mounting your digital signage screens. Consumers expect a joined-up sales strategy, meaning that what they find in-store reflects what they find online. Digital signage is the platform to bring those multichannel messages together, allowing retailers to draw the attention of customers both in-store and passing by. With its secure and stable design, it is ideal for the retail, hospitality, and entertainment industries to drive digital engagement with customers and end-users.

### Compatibility

Samsung displays: QH55R / QH55B. Other displays can be supported on request.

### Features

- **Small Footprint & Consistent Design:** Across our indoor product range (Wall, Floor or Window mounted)
- **Safety and Security:** Protective safety glass included with each enclosure as well as top and bottom security screws
- **Designed and manufactured in Denmark:** Short lead times with a focus on simplicity, quality, and sustainability
- **Easy installation & Maintenance:** The modular design ensures that the solutions can be assembled without the use of any mechanical lifting equipment whilst also providing easy removal of the screen for maintenance
- **Customisation:** Available in a wide range of colours, with the ability to add your own corporate touch

### Benefits

- **Space optimisation with "one look":** Designed with a minimal footprint for space optimisation on the retail floor, maintaining your "look & feel" throughout the store
- **Safe and secure:** Protecting your customers and preventing tampering or theft of the screen
- **Sustainability:** The slim enclosure is designed and manufactured in line with our core value to respect the planet
- **Cost effective installation & Maintenance:** Saves time and cost in installation as well as maintenance of the display when easy access is required
- **Make it your own:** Including the use of your corporate colours, logo, and brand identity

## Technical specifications

	SPDS1000	SPDS1001	SPDS1100	SPDS1101 / SPDS1102 / SPDS1103
