

# SpacePole PAYlift™

## Payment Solutions

### Accessible and secure payment transactions for all

Perfect for both attended and self-service operations, this payment “slider” makes transactions easier for all, and especially wheelchair users. Simply press the button to release the lock and the payment device can be pulled towards the customer at the optimum angle. Once the transaction has been completed, PAYlift can easily be returned to its original position by the customer or the operator.

### Compatibility

PAYlift is compatible with our MultiGrip or MultiClip payment device adapters and designed to complement our SpacePole Essentials and SpacePole Kiosk product ranges.

### Features

- Superior ergonomics: Adjustable height and reach as well as rotation and tilt
- Complies with relevant EU directives and the Americans with Disability Act (ADA)
- Customer operated
- Robust construction
- Modular and configurable

### Benefits

- Enhanced customer experience and in-store productivity
- Inclusivity: Providing accessibility to all (wheelchair, visually impaired etc.)
- Ideal for **attended** and **unattended installations**, including self-service environments and standalone kiosk installations
- Durable in high throughput environments and reducing risks of hardware failure.
- Providing easy upgrades, protecting your hardware investments

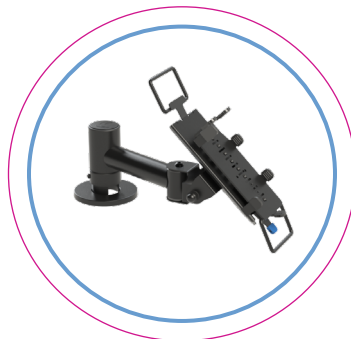

PATENT PENDING
